

# MARCH

A MARCH BLIZZARD  
IN NORTH DAKOTA NEARLY  
BURIED UTILITY POLES

S	M	T	W	T	F	S
		1	2	3	4	5
				1953: Snow is reported on the island of Oahu, Hawaii.		1962: The strongest nor'easter of this century hits the Mid Atlantic Region. The "Ash Wednesday Storm" causes major coastal erosion and puts two islands completely under water.
6	7	8	9	10	11	12
						1888: The East Coast is hit with a terrible blizzard. It renders New York, the most technologically advanced city in the U.S. at the time, completely helpless.
13	14	15	16	17	18	19
			1942: Baldwin, Mississippi, is struck by two tornadoes 35 minutes apart.		1925: The Tri-State Tornado, the deadliest tornado in U.S. history, travels 219 miles through Missouri, Illinois, and Indiana. It lasts 3.5 hours and claims 695 lives.	
20	21	22	23	24	25	26
Vernal Equinox (first day of spring)						
27	28	29	30	31		
	1983: NOAA-E/8, the first U.S. satellite to include the Search and Rescue package, launches.
